

## Michael L. Roderick – Publication List

(Last updated: 28 April 2008)

### Publications – Peer Reviewed

[R1] Roderick, M.L. (1991) Updating digital cadastral databases in Queensland: the application of covariance. *Australian Surveyor* **36**, 92-99.

[R2] Roderick, M.L. (1992) Methods for Calculating Solar Position and Day Length Including Computer Programs and Subroutines. *Division of Resource Management Technical Report No. 137*. Western Australian Department of Agriculture, Perth, 22 pp.

[R3] Roderick, M.L., Smith, R.C.G. and Cridland, S.W. (1996) The precision of the NDVI derived from AVHRR observations. *Remote Sensing of Environment* **56**, 57-65.

[R4] Roderick, M.L., Smith, R.C.G. and Lodwick, G.D. (1996) Calibrating long term AVHRR derived NDVI imagery. *Remote Sensing of Environment* **58**, 1-12.

[R5] Underwood, G.A. and Roderick, M.L. (1997) Spatio-temporal visualisation of inter-annual variations in rainfall: the rainfall ribbon approach. *Cartography* **28**, 13-21.

[R6] Roderick, M.L. (1999) Estimating the diffuse component from daily and monthly measurements of global radiation. *Agricultural and Forest Meteorology* **95**, 169-185.

[R7] Roderick, M.L., Berry, S.L., Noble, I.R. and Farquhar, G.D. (1999) A theoretical approach to linking the composition and morphology with the function of leaves. *Functional Ecology* **13**, 683-695.

[R8] Roderick, M.L., Berry, S.L., Saunders, A.R. and Noble, I.R. (1999) On the relationship between the composition, morphology and function of leaves. *Functional Ecology* **13**, 696-710.

[R9] Roderick, M.L., Berry, S.L. and Noble, I.R. (1999) The relationship between leaf composition and morphology at elevated CO<sub>2</sub> concentrations. *New Phytologist* **143**, 63-72.

[R10] Weiher, E., van der Werf, A., Thompson, K., Roderick, M.L., Garnier, E. and Eriksson, O. (1999) Challenging Theophrastus: A common core list of plant traits for functional ecology. *Journal of Vegetation Science* **10**, 609-620.

[R11] Roderick, M.L., Noble, I.R. and Cridland, S.W. (1999) Estimating woody and herbaceous vegetation cover from time series satellite observations. *Global Ecology and Biogeography* **8**, 501-508.

[R12] Roderick, M.L. (2000) On the measurement of growth with applications to the modelling and analysis of plant growth. *Functional Ecology* **14**, 244-251.

[R13] Roderick, M.L., Berry, S.L. and Noble, I.R. (2000) A framework for understanding the relationship between environment and vegetation based on the surface area to volume ratio of leaves. *Functional Ecology* **14**, 423-437.

- [R14] Roderick, M.L. and Berry, S.L. (2001) Linking wood density with tree growth and environment: a theoretical analysis based on the motion of water. *New Phytologist* **149**, 473-485.
- [R15] Roderick, M.L. (2001) On the use of thermodynamic methods to describe water relations in plants and soil. *Australian Journal of Plant Physiology* **28**, 729-742.
- [R16] Roderick, M.L., Farquhar, G. D., Berry, S.L. and Noble, I.R. (2001) On the direct effect of clouds and atmospheric particles on the productivity and structure of vegetation. *Oecologia* **129**, 21-30.
- [R17] Berry, S.L. and Roderick, M.L. (2002) Estimating mixtures of leaf functional types using continental-scale satellite and climatic data. *Global Ecology and Biogeography*, **11**, 23-39.
- [R18] Roderick, M.L. and Cochrane, M.J. (2002) On the conservative nature of the leaf mass-area relationship. *Annals of Botany* **89**, 537-542.
- [R19] Hume, I. H., McVicar, T. R. and Roderick, M.L. (2002) Optical Properties of Leaves in the Visible and Near-Infrared under Beam and Diffuse Irradiance. CRC for Catchment Hydrology Technical Report 02/3. pp. 57.
- [R20] Berry, S.L. and Roderick, M.L. (2002) CO<sub>2</sub> and land use effects on Australian vegetation over the last two centuries. *Australian Journal of Botany*, **50**, 511-531.
- [R21] Roderick, M.L. and Farquhar, G.D. (2002) The cause of decreased pan evaporation over the last 50 years. *Science* **298**, 1410-1411.
- [R22] Holm, A.M., Cridland, S.W. and Roderick, M.L. (2003) The use of time-integrated NDVI and rainfall to assess landscape degradation in the arid shrublands of Western Australia. *Remote Sensing of Environment* **85**, 145-158.
- [R23] Farquhar, G.D. and Roderick, M.L. (2003) Pinatubo, diffuse light, and the carbon cycle. *Science* **299**, 1997-1998.
- [R24] Gifford, R. M. and Roderick, M. L. (2003) Soil carbon stocks and bulk density: Spatial or cumulative mass coordinates as a basis of expression? *Global Change Biology* **9**, 1507-1514.
- [R25] Roderick, M.L. and Barnes, B. (2004) Self-thinning of plant populations from a dynamic viewpoint. *Functional Ecology* **18**, 197-203.
- [R26] Barnes, B. and Roderick, M.L. (2004) An ecological framework linking scales across space and time based on self-thinning. *Journal of Theoretical Population Biology* **66**, 113-128.
- [R27] Roderick, M.L. and Farquhar, G.D. (2004) Changes in Australian pan evaporation from 1970 to 2002, *International Journal of Climatology* **24**, 1077-1090.
- [R28] Berry, S.L. and Roderick, M. L. (2004) Carbon stocks and fluxes of the Australian vegetation from 1788 to 1988 AD: Estimating GPP from vegetation cover and net radiation. *Global Change Biology* **10**, 1884-1898.

- [R29] Roxburgh, S.H., Barrett, D.J., Berry, S.L., Carter, J.O., Davies, I.D., Gifford, R.M., Kirschbaum, M.U.F., McBeth, B.P., Noble, I.R., Parton, W.G., Raupach, M.R., Roderick, M.L. (2004) A critical overview of model estimates of net primary productivity for the Australian continent. *Functional Plant Biology* **31**, 1043-1059.
- [R30] Canny, M. J. and Roderick, M. L. (2005) A second pathway for gas out of the pressure chamber – what is being squeezed? *Plant Physiology and Biochemistry*, **43**, 315-321.
- [R31] Roderick, M. L. and Canny, M. J. (2005) A mechanical interpretation of pressure chamber measurements – what does the strength of the squeeze tell us? *Plant Physiology and Biochemistry*, **43**, 323-336.
- [R32] Roxburgh, S. R., Berry, S. L., Buckley, T., Barnes, B. and Roderick, M. L. (2005) What is NPP? Inconsistent accounting of respiratory fluxes in the definition of net primary production. *Functional Ecology*, **19**, 378-382.
- [R33] Sulistyawati, E., Noble, I. R. and Roderick, M. L. (2005) A simulation model to study land use strategies in swidden agriculture system. *Agricultural Systems*, **85**, 271-288.

- [R40] Rotstayn, L. D., Roderick, M. L. and Farquhar, G. D. (2006) A simple pan-evaporation model for analysis of climate simulations: Evaluation over Australia. *Geophysical Research Letters*, **33**, L17715, doi:10.1029/2006GL027114.
- [R41] Barnes, B., Mokany, K. and Roderick, M. L. (2007) Allocation within a generic scaling framework. *Ecological Modelling*, **201**, 223-232.
- [R42] Canny, M. J., Sparks, J. P., Huang, C. X., Roderick, M. L. (2007) Air embolisms exsolving in the transpiration water – the effect of constrictions in the xylem pipes. *Functional Plant Biology*, **34**, 95-111.

[R43] Donohue, RJ, Roderick ML and McVicar, TR (2007) On the importance of including vegetation dynamics in Budyko's hydrological model, *Hydrology and Earth System Sciences*, **11**, 983-995.

[R44] Rotstayn LD, Cai W, Dix MR, Farquhar GD, Feng Y, Ginoux P, Herzog M, Ito A, Penner JE, Roderick ML, Wang M. (2007) Have Australian rainfall and cloudiness increased due to the remote effects of Asian anthropogenic aerosols? *Journal of Geophysical Research*, **112**, D09202, doi:09210.01029/02006JD007712.

[R45] Roderick ML, Rotstayn LD, Farquhar GD, Hobbins MT (2007) On the attribution of changing pan evaporation, *Geophysical Research Letters*, **34**, L17403, doi:10.1029/2007GL031166.

[R46] McDonnell, J. J., Sivapalan, M., Vaché, K., Dunn, S., Grant, G., Haggerty, R., Hinz, C., Hooper, R., Kirchner, J., Roderick, M. L., Selker, J., Weiler, M. (2007) Moving beyond heterogeneity and process complexity: A new vision for watershed hydrology, *Water Resources Research*, **43**, W07301, doi:10.1029/2006WR005467.

[R47] Schymanski SJ, Roderick ML, Sivapalan M, Hutley LB, Beringer J (2007) A Test of the Optimality Approach to Modelling Canopy Properties and CO<sub>2</sub> Uptake by Natural Vegetation, *Plant Cell and Environment*, **30**, 1586-1598.

[R48] Farquhar, G. D., Roderick, M. L. (2007) Worldwide Changes in Evaporative Demand, In: *Proceedings of the Workshop "Water and the Environment"*, Pontificia Academia Scientiarvm 108. Prof I Rodriguez-Iturbe and H.E. Msgr. MS Sorondo (eds). Pontificia Academia Scientiarvm. Pp. 81-103.

[R49] Schymanski SJ, Roderick ML, Sivapalan M, Hutley LB, Beringer J (2008) A canopy scale test of the optimal water use hypothesis, *Plant Cell and Environment*, **31**, 97-111.

#### **Publications – Peer Reviewed – In Press**

[R50] Donohue RJ, Roderick ML, McVicar TR (2008) Deriving consistent long-term vegetation information from AVHRR reflectance data using a cover-triangle-based framework, *Remote Sensing of Environment*, in press (accepted Feb 2008).

[R51] Hobbins MH, Dai A, Roderick ML, Farquhar GD (2008) Revisiting the parameterization of potential evaporation as a driver of long-term water balance trends, *Geophysical Research Letters*, in press, (accepted 17 April 2008).

#### **Publications – Book, Theses, Book Chapters**

[B1] Roderick, M.L. (1994) *Satellite Derived Vegetation Indices for Monitoring Seasonal Vegetation Conditions in Western Australia*. PhD Thesis, School of Surveying and Land Information. Curtin University of Technology, Perth, 349 pp.

[B2] Roderick, M.L., Chewings, V. and Smith, R. (2000) Remote sensing in vegetation and animal studies. In: *Field and Laboratory Methods for Grassland and Animal Production Research* (eds L. 't Mannetje & R.M. Jones), CAB International, pp. 205-225.

[B3] Roderick, M. L. and Farquhar, G. D. (2004). The pan evaporation paradox. In: *Global Change and the Earth System: A Planet Under Pressure* (eds W. Steffen, A. Sanderson, P. Tyson, J. Jäger, P. Matson, B. Moore III, F. Oldfield, K. Richardson, H.-J. Schellnhuber, B.L. Turner II & R. Wasson). Springer-Verlag, Berlin.

### **Invited Lectures, Presentations, etc.**

[L1] Roderick ML, Berry SL, Noble IR (1998) The effect of elevated CO<sub>2</sub> on leaves, Invited Keynote Address at the 4<sup>th</sup> New Phytologist Forum, Montpellier, France, October 1998.

[L2] Roderick ML, Farquhar GD (2003) The cause of decreased pan evaporation over the last 50 years. Invited Keynote Address at the EGS-AGU-EUG Joint Assembly, Nice, France, April 2003.

[L3] Roderick ML, Farquhar GD (2003) Changes in pan evaporation: What is happening and why it is important. Invited address at CSIRO Plant Industry, Black Mountain, Canberra, July 2003.

[L4] Roderick ML, Farquhar GD (2003) Changes in pan evaporation: What is happening and why it is important. Invited address at the Centre for Water Research, UWA, Perth, October 2003.

[L5] Farquhar GD, Roderick ML (2003) Why is pan evaporation rate going down in the northern hemisphere if there is global warming?, 2003 Climate Centre Fall lecture, Columbia University, New York, November 2003.

[L6] Roderick ML, Farquhar GD (2004) Ecohydrology and Climate Change. Invited Keynote Address to the International Association of Hydrological Sciences, Perth, February 2004.

[L7] Roderick ML, Farquhar GD (2004) Pan evaporation in the southern hemisphere: what is happening?, Invited Keynote Address at the CGU-AGU Joint Conference, Montreal, 17-21 May 2004.

[L8] Roderick ML, Farquhar GD (2004) Declining pan and potential evaporation – consequences for the surface moisture balance. Invited Earth Institute Seminar, Columbia University, New York, 25 May 2004.

[L9] Roderick ML, Berry SL (2004) Linking form and function: What can we learn about catchments from plants, Invited Keynote Address at the US NSF consortium on Visions for Catchment Hydrology, Corvallis, Oregon, June 2004.

[L10] Roderick ML, Farquhar GD (2004) Declining pan and potential evaporation – consequences for the surface moisture balance. Special Briefing to the Department of Prime Minister & Cabinet, Parliament House, Canberra, July 2004.

[L11] Roderick ML, Farquhar GD (2004) The surface water balance and climate change, Invited talk at the Sutton Landcare Group, October 2004.

[L12] Farquhar GD, Roderick ML (2004) Trends in pan evaporation: theory, observations and implications for the terrestrial water balance, Invited Keynote Address, 16<sup>th</sup> Australia New Zealand Climate Forum, Lorne, Victoria, 8-10 November 2004.

[L13] Farquhar GD, Roderick ML (2004) The pan evaporation paradox – an overview of the scope of the problem, Invited address to the Pan Evaporation: an example of the detection and attribution of trends in climate variables conference, Australian Academy of Science, Canberra, 22-23 November 2004.

[L14] Roderick ML, Farquhar GD (2004) An analysis of pan evaporation changes in relation to possible explanatory factors, Invited address to the Pan Evaporation: an example of the detection and attribution of trends in climate variables conference, Australian Academy of Science, Canberra, 22-23 November 2004.

[L15] Roderick ML, Farquhar GD (2005) The causes of declining pan evaporation and consequences for the surface moisture balance over the last 50 years, Invited Keynote Address at the Australian Institute of Physics 16<sup>th</sup> Biennial Congress, Canberra, 31 January-4 February.

[L16] Farquhar GD, Rotstayn LD, Roderick ML (2005) Drier or wetter under climate change, Invited Address at the Annual Science Meets Parliament Conference, Parliament House, Canberra, March 2005.

[L17] Farquhar GD, Gifford RM, Roderick ML (2005) Global dimming, global brightening, or what? Invited Address at the Presidents Soiree, Australian Academy of Science, June 2005.

[L18] Roderick ML, Farquhar GD (2005) Predicting climate change impacts in Ecology and Hydrology: The importance of non-linearities, Invited Keynote Address at the 2005 Sir Mark Oliphant Conference titled Thresholds and pattern dynamics: A new paradigm for predicting climate driven processes, UWA, Perth, July 2005.

[L19] Roderick ML, Farquhar GD (2005) Climate change: wetter or drier?, Invited Address at the Queensland Department of Natural Resources and Mines, Brisbane, 13 July 2005.

[L20] Farquhar GD, Roderick ML (2005) Evaporative demand and climate change, Invited address to the working group on 'Water and the Environment', The Pontifical Academy of Sciences, Vatican City, Rome, 12-14 November 2005.

[L21] Roderick ML, Farquhar GD, Rotstayn LD (2005) Climate Change: Wetter or Drier? Invited Keynote address at Greenhouse 2005, Melbourne, 14-17 November 2005.

[L22] Farquhar GD, Roderick ML (2005) Integrative climate science, economics and sociology, Invited Address at the Presidents Soiree, Australian Academy of Science, Canberra, 24 November 2005.

[L23] Roderick ML, Farquhar GD (2005) Declining pan evaporation: a closer look at the ecohydrological implications and the physics, Invited Keynote Address at the AGU Assembly, San Francisco, 5-9 December 2005.

[L24] Farquhar GD, Roderick ML (2006) Evaporative demand and climate change, Invited seminar at Research School of Earth Sciences, The Australian National University, Canberra, 9 February 2006.

[L25] Roderick ML, Farquhar GD, Rotstayn LD (2006) Climate change and evaporative demand, Invited Address at the Managing Climate Variability Forum, Land & Water Australia, Adelaide, 29-30 March 2006.

[L26] Roderick ML, Farquhar GD (2006) Climate Change: Wetter or Drier?, CRC for Greenhouse Accounting Business Briefing, Melbourne, 1 June 2006.

[L27] Roderick ML, Farquhar GD (2006) Climate Change: Wetter or Drier?, CRC for Greenhouse Accounting Business Briefing, Sydney, 13 June 2006.

[L28] Roderick ML, Berry SL, Canny MJ (2006) Water in wood: getting the simple things right, Invited Address at the 1<sup>st</sup> Annual Conference on the Physics, Chemistry and Biology of Water, Brattleboro, Vermont, 26-29 October 2006.

[L29] Roderick, ML (2007) The changing water balance: How is it panning out?, invited lecture at the University of Illinois, December 2007.

[L30] Roderick, ML (2008) The surface water balance: How is it panning out?, invited address at Geological Society of Australia Annual General Meeting, Canberra, 15 April 2008.
